

QCPGraph::QCPGraph

```
graph LR; A[QCPGraph::QCPGraph] --> B[QCPGraph::setChannelFill<br/>Graph];
```

The diagram illustrates a call to the `setChannelFill` method of the `QCPGraph` class. On the left, a white rectangular box with a black border contains the text `QCPGraph::QCPGraph`. A dark blue arrow points from the right side of this box to the left side of a larger gray rectangular box with a black border on the right. This gray box contains the text `QCPGraph::setChannelFill` on the top line and `Graph` on the bottom line.
