

QCPAbstractItem::createPosition

QCPItemTracer::setGraph

QCPItemPosition::setAxes

```
graph LR; A[QCPAbstractItem::createPosition] --> C[QCPItemPosition::setAxes]; B[QCPItemTracer::setGraph] --> C;
```

The diagram illustrates a relationship between three methods. On the left, two white rectangular boxes with black borders contain the text 'QCPAbstractItem::createPosition' (top) and 'QCPItemTracer::setGraph' (bottom). On the right, a gray rectangular box with a black border contains the text 'QCPItemPosition::setAxes'. Two blue arrows originate from the right side of the left boxes and point towards the left side of the gray box, indicating that both 'QCPAbstractItem::createPosition' and 'QCPItemTracer::setGraph' call or utilize 'QCPItemPosition::setAxes'.
