

QCPItemRect::QCPItemRect

```
graph LR; A[QCPItemRect::QCPItemRect] --> B[QCPItemRect::setSelected Brush]
```

The diagram illustrates a call to the `QCPItemRect::setSelected Brush` method from the `QCPItemRect::QCPItemRect` constructor. A white box on the left contains the constructor name, and a grey box on the right contains the method name. A blue arrow points from the white box to the grey box.
