

QCustomPlot::rescaleAxes

QCustomPlot::selectedAxes

QCPAxisRect::axes

```
graph LR; A[QCustomPlot::rescaleAxes] --> C[QCPAxisRect::axes]; B[QCustomPlot::selectedAxes] --> C;
```

The diagram illustrates a relationship between three objects. On the left, there are two white rectangular boxes with black borders. The top box contains the text 'QCustomPlot::rescaleAxes' and the bottom box contains 'QCustomPlot::selectedAxes'. On the right, there is a single gray rectangular box with a black border containing the text 'QCPAxisRect::axes'. Two blue arrows originate from the right side of the two white boxes and point towards the left side of the gray box, indicating that both 'rescaleAxes' and 'selectedAxes' methods or properties interact with or access the 'axes' property of 'QCPAxisRect'.
