

QCPAxis::setTickLength

```
graph LR; A[QCPAxis::setTickLength] --> B[QCPAxis::setTickLengthIn]; A --> C[QCPAxis::setTickLengthOut];
```

The diagram illustrates the relationship between the `QCPAxis::setTickLength` method and its internal components. A central box labeled `QCPAxis::setTickLength` has two arrows pointing to boxes labeled `QCPAxis::setTickLengthIn` and `QCPAxis::setTickLengthOut`.

QCPAxis::setTickLengthIn

QCPAxis::setTickLengthOut
