

QCPColorMap::setData

QCPColorMap::updateLegendIcon

QCPColorMap::data

```
graph LR; A[QCPColorMap::setData] --> C[QCPColorMap::data]; B[QCPColorMap::updateLegendIcon] --> C;
```

The diagram illustrates a dependency or data flow. On the left, two rectangular boxes represent methods: 'QCPColorMap::setData' (top) and 'QCPColorMap::updateLegendIcon' (bottom). On the right, a rectangular box represents an attribute, 'QCPColorMap::data', which is shaded gray. Two blue arrows originate from the right side of the method boxes and point towards the left side of the attribute box, indicating that both methods interact with or depend on the 'data' attribute.
