

QCPLitemLine::setHead

```
graph LR; A[QCPLitemLine::setHead] --> B[QCPLitemLine::head]
```

A diagram illustrating a function call. On the left, a gray rectangular box contains the text "QCPLitemLine::setHead". A blue arrow points from the right side of this box to the left side of a white rectangular box on the right. The white box contains the text "QCPLitemLine::head". Both boxes have a black border.
