

QCPAbstractItem::QCPAbstractItem

```
graph LR; A[QCPAbstractItem::QCPAbstractItem] --> B[QCPAbstractItem::setClipToAxisRect]
```

The diagram illustrates a call to the `setClipToAxisRect` method from the `QCPAbstractItem::QCPAbstractItem` constructor. A white rectangular box on the left contains the constructor signature, and a gray rectangular box on the right contains the method signature. A blue arrow points from the constructor box to the method box.

QCPAbstractItem::setClip
ToAxisRect
