

QCustomPlot::mouseDouble
ClickEvent

QCustomPlot::mouseRelease
Event

QCustomPlot::layerableAt

```
graph LR; A[QCustomPlot::mouseDoubleClickEvent] --> C[QCustomPlot::layerableAt]; B[QCustomPlot::mouseReleaseEvent] --> C;
```

The diagram illustrates a relationship between two mouse events and a function. On the left, there are two white rectangular boxes. The top box contains the text 'QCustomPlot::mouseDoubleClickEvent' and the bottom box contains 'QCustomPlot::mouseReleaseEvent'. On the right, there is a gray rectangular box containing the text 'QCustomPlot::layerableAt'. Two blue arrows originate from the right side of the left boxes and point towards the left side of the gray box, indicating that both mouse events are handled by the 'layerableAt' function.
