

QCPItemAnchor::~~QCPItemAnchor

QCPItemPosition::~~QCPItem
Position

QCPItemPosition::parentAnchorX

```
graph LR; A[QCPItemAnchor::~~QCPItemAnchor] --> C[QCPItemPosition::parentAnchorX]; B[QCPItemPosition::~~QCPItemPosition] --> C;
```

The diagram illustrates a memory management or pointer relationship. On the left, there are two rectangular boxes. The top box contains the text 'QCPItemAnchor::~~QCPItemAnchor'. The bottom box contains the text 'QCPItemPosition::~~QCPItemPosition'. On the right, there is a shaded rectangular box containing the text 'QCPItemPosition::parentAnchorX'. Two blue arrows originate from the right side of the left boxes and point towards the left side of the shaded box. The top arrow starts from the right side of the top box and points to the top edge of the shaded box. The bottom arrow starts from the right side of the bottom box and points to the bottom edge of the shaded box.
